

## Cable Lock Release Form

All university-owned computers on campus must be secured with a cable lock. ITS provides cable locks for university-owned computers at no charge.

If you cannot use a cable lock at your desk, please contact Facilities Management (x6464) for assistance.

If you cannot unlock your cable lock, please contact Public Safety (x4222) for assistance.

Clients at regional campuses should give one of their two cable lock keys to their regional campus director for safekeeping.

I understand and agree to the above:
