

# Using *ebrary* ebooks

*ebrary* provides online access to the full text of almost 25,000 books in key subject areas such as Business & Economics, Computers & Technology, Language & Literature, Medicine, History & Philosophy.

## Finding ebooks

You can find *ebrary* ebooks by

- Limiting your search (author, title, keyword, etc.) in Ignacio, the library's catalog (<http://ignacio.usfca.edu/>) to ebooks by selecting *ebooks* from the drop down *Material Type* menu found on the Advanced search screen. If you've already executed a search, limit to ebooks by clicking on **Modify Search** at the top and following the instructions above.
- Accessing and searching the *ebrary* database directly through the A-Z database menu in the USF Library homepage <http://www.usfca.edu/library/>.

## Accessing *ebrary*

In *ebrary* you must download the *ebrary* reader to view the ebooks. To do this, click on the *Get ebrary Reader* button on the top right of the *ebrary* homepage. You will then be taken through the installation process.

*ebrary* ebooks are always available to an unlimited number of people at a time. To view the book, click on the **View** link under the title in your results screen.

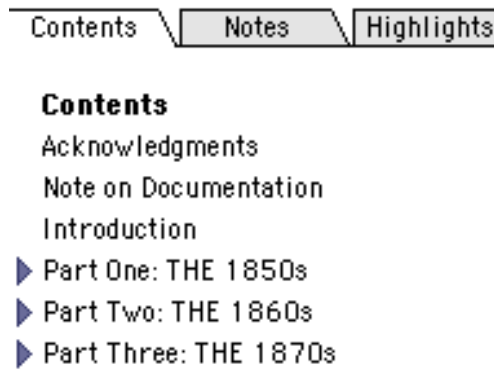

## Navigating and Searching

To navigate or search within an *ebrary* text, you can:

- Use the arrow buttons on the task bar at the top of the screen
- Use the *Go to page number* button on the task bar
- Search the book for a word or phrase by clicking on the *InfoTools* drop down menu on the task bar and going to *Search Document*.

## Browsing

← Browse the chapters or sections of the ebook by using the table of contents to the left of the screen.

## Copying and Printing

You can copy and print 10 pages at a time and 40 pages per browser session. To print, click on the InfoTools drop down menu and select *Print*. Enter the pages you would like to print.

To copy text, highlight the text with your cursor, go to the InfoTools dropdown menu and select *Copy Text*. Copying or printing entire ebooks violates copyright laws.

## Special Features

To use the advanced features of *ebrary* you will need to set up a username and password. These features can be accessed through the InfoTools dropdown menu on the tool bar. Some of these features include:

- Adding notes and highlighting to text and bookmarks to pages
- Saving ebooks to a personal bookshelf
- Automatic searching for information by highlighting text with the cursor and selecting a command from the InfoTools menu. You can search for:
  - Authors, titles and keywords in *Ignacio* and several search engines
  - Names in an online phone book
  - Places in an online map database
  - Definitions in an online dictionary
