Re: A Message from the Director

Greetings from the University of San Francisco:

In compliance with the 1990 Crime Awareness and Security Act, California State regulations, and the 1998 Jeanne Clery Act, I am pleased to present the Department of Public Safety's Annual Security Report covering the years 2006, 2007 and 2008. As in past years, crime statistics confirm a low campus crime rate, especially, the low incidence of violent crime. For an electronic version of this report please visit the Department of Public Safety's website at http://www.usfca.edu/public_safety. If you would like a printed copy, please contact us at (415) 422-4222 and we will gladly provide you with one.

Statistics compiled for 2008 indicate that in four of the nine on campus categories no crimes were reported. 2008 crime statistics also indicate a dramatic decrease in burglaries. The Department of Public Safety has been working collaboratively with residence hall staff and building marshals with the goal of increasing community awareness about taking proper crime prevention actions. Most burglaries are theft related and are preventable.

In 2008, there was a double homicide near campus, one that involved no USF employees or students. Police believe this crime was an isolated incident, and does not pose any ongoing safety concern for the university community or our neighbors.

After having an increase, from years 2005 through 2007, liquor law and drug abuse violations on campus dropped dramatically during 2008. This dramatic drop in violations suggests that the extensive collaborative efforts of the Office of Student Conduct, Rights and Responsibilities, the Office of Residence Life, the Counseling and Psychological Services Office, the Health Promotion Services Office, and the Department of Public Safety, supported by a US Department of Education Grant to reduce high-risk drinking at the University, has had a direct impact on this decrease.

The Department of Public Safety operates 24 hours a day, seven days a week to maintain a safe, secure and healthy campus environment. We depend on the support of the University Community to share in this responsibility. We urge everyone to follow established University rules and regulations and to contact the Department of Public Safety immediately if any suspicious activity is witnessed.

Questions or concerns regarding this report should be directed to the Department of Public Safety. Thank you for your cooperation and support.

Sincerely,

A handwritten signature in black ink that reads 'Daniel L. Lawson'.

Daniel L. Lawson
Executive Director/ Chief of University Police
lawson@usfca.edu

Attached: USF 2009 Clery Report for years 2006, 2007, 2008

The University of San Francisco 2009 Annual Security Report (Reporting years 2006, 2007, 2008)

*Includes new information mandated by the 2008 Amendments of the Jeanne Clery Act Enacted into Law August 14, 2008

THE DEPARTMENT

The Department of Public Safety subscribes to a proactive approach to law enforcement and further believes that the community and the Department of Public Safety (Public Safety) play a collaborative role in maintaining a safe environment. Public Safety is charged with protecting life and property, and maintaining a safe environment for employees, students and visitors. Public Safety is currently staffed by full-time and part-time Officers, Dispatchers and administrative staff. Reserve Officers supplement the full-time staff by working patrol shifts at campus events. The Public Safety administrative office is located in University Center, Room 310. The Patrol and Dispatch Division operates 24 hours a day from their office in the lower level of Lone Mountain.

Selection Process and Training

Candidates for the position of Public Safety Officer must pass a comprehensive examination process which includes a background investigation, psychological evaluation and employment interview(s). This process is designed to determine the applicant's suitability for a law enforcement position in a university environment. Officers must graduate from a regional police academy, and Officers must conform to (POST = Police Officer Standard Training) training requirements and standards presented in the Business and Professional Code (as regulated by the Bureau of Security and Investigative Services and the Department of Consumer Affairs) and the California Penal code.

In addition to State-mandated training, Officer Candidates are required to pass a 7-week Field Training Program. During this program, Officer Candidates are evaluated daily on their knowledge and ability to handle field situations. Once hired, Officers also receive ongoing professional development training on campus and at regional police academies. These courses include, but are not limited to: Hazardous Materials Response, Sexual Assault Investigation, Advanced Officer Training, Earthquake Management, Diversity, Firearm Recertification, CPR, First Aid and courses sponsored by ARETE (USF's staff training program).

*Arrest Authority and Jurisdiction

USF DPS Officers have complete authority to apprehend and arrest anyone involved in illegal acts on-campus and or university owned property. Public Safety may refer minor offenses involving University rules and regulations committed by a student to the Office of Student Conduct Rights and Responsibilities. On campus, Officers enforce University regulations and applicable federal, state and local laws. Public Safety Officers are employees of the University and are not sworn peace officers. However, they possess peace officer powers of arrest pursuant to section 830.7 of the California Penal Code. Officers patrol and monitor campus facilities 24 hours a day through foot, vehicle and mountain bike patrols. Dispatch staff also monitors video surveillance equipment and alarm systems.

Public Safety has a strong working relationship with the San Francisco emergency service agencies (Police Department, Fire Department and paramedics) and a signed Memorandum of Understanding with the San Francisco Police Department. Persons arrested by Public Safety Officers are released to the San Francisco

The University of San Francisco 2009 Annual Security Report (Reporting years 2006, 2007, 2008)

Police Department (SFPD) for booking and processing at the County Jail. Public Safety requires SFPD assistance for all major crimes. Misdemeanor offenses may also be reported to SFPD through verbal or written means.

***CAMPUS EMERGENCY RESPONSE AND IMMEDIATE WARNING**

The University of San Francisco and Department of Public Safety will immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty and staff on campus.

Emergency response and evacuation procedures are tested annually by the university.

USF uses combination of methods to communicate a campus emergency;

1. USF's outdoor siren system,
2. USF Connect and USF email,
3. Simultaneous broadcast of emergency information by the Department of Public Safety Dispatch Center to university community via email, voice and text message,
4. Building Marshals
5. KUSF Radio 90.3 FM

Please review the USF Emergency notification system methods, University's disaster preparedness plans and evacuation procedures on the Department of Public Safety website at:

http://www.usfca.edu/public_safety/Disaster_Preparedness/Disaster_Pre_Info.html

CRIME PREVENTION AND AWARENESS

Annual Security Report

Public Safety publishes this Annual Security Report on October 1st. This Report contains statistics from the three most recent calendar years for crimes reported on campus, in residence halls, in non-campus buildings or property, and on USF regional campuses, as well as on public property and thoroughfares adjacent to each reporting area. It also includes statistics for referrals for University disciplinary action for alcohol abuse violations, drug abuse violations and weapons violations. These statistics are obtained from the following sources: Public Safety records, local law enforcement agencies within whose jurisdiction the reporting area lies, the Office of Residence Life, Office of Student Conduct, Rights and Responsibilities, University Life staff and other members of the community who have a significant responsibility for student and campus activities.

Reporting Crimes and Emergencies

USF DPS encourages anyone who is the victim or witness to a crime on the USF campus, university owned property and or a university sponsored event to promptly report the incident to the USF Department of Public Safety. Officers respond to all reports of accidents, crimes, suspicious persons, hazards and medical emergencies, as well as service calls. Victims and witnesses of crimes may call extension 2911 from a campus phone or (415) 422-2911 from an outside line. San Francisco emergency services (SFPD, Fire Department and paramedics) can be summoned by calling 2911 from a campus phone or 911 from an outside line. Assistance can also be summoned by using any of the direct-dial

The University of San Francisco 2009 Annual Security Report (Reporting years 2006, 2007, 2008)

emergency phones (housed in yellow boxes and labeled with red and white signs) located outside many campus buildings, in most parking lots and in all multi-level parking garages. Steady burning blue lights accompany several of the phones.

Incident reports filed by Public Safety Officers are confidential and may be released at the discretion of the Director or pursuant to a court order. Public Safety Officers will investigate incidents and notify the Vice President for University Life (or designee) of alleged violations of University regulations and/ or crimes involving faculty, staff and students. Certain incidents or crimes may require the notification of outside law enforcement agencies. In these cases, all efforts to maintain victim/reporter confidentiality will be made. The Department of Public Safety reports all thefts of university property to the San Francisco Police Department.

Importance of Reporting

By reporting alleged crimes and other suspicious circumstances directly to Public Safety, the alleged crime or suspicious circumstance will be included in Public Safety's Open Log, the daily report of crimes or suspicious incidents reported to Public Safety, and it will be included in the Annual Security Report (if appropriate). Additionally, Public Safety will be able to issue timely and appropriate warning bulletins alerting the campus community to the issue. Public Safety reports are confidential. When reporting a crime or suspicious circumstance, you need not state your name or the name of victims, witnesses, etc.

Crime Prevention Workshops

Public Safety as well as other university departments (i.e. Koret Recreation Center, Office of Residence Life, Counseling and

Psychology Services, Health Promotion Services and the Office of Student Conduct, Rights and Responsibilities), offers a variety of safety and crime prevention presentations. Topics include personal safety and crime prevention, sexual assault awareness, alcohol and drug awareness, self-defense and fire safety and prevention. Crime Prevention and personal safety workshops are offered at least three times a semester, (fall and spring) and presentations frequently involve experts from public and private organizations. For information about crime prevention presentations, please contact Public Safety at (415) 422-4222 or visit the Public Safety website at www.usfca.edu/public_safety.

Student Right to Know

In an effort to prevent crime and increase safety on campus, information regarding major incidents may be forwarded to certain University offices, including the office of Public Affairs and the FOGHORN (the campus student newspaper). When circumstances require immediate notification throughout the University community, timely and appropriate warning bulletins are produced and circulated to residence halls and other buildings. Electronic correspondence (USF Connect Messages, emails are posted to the Public Safety website: www.usfca.edu/public_safety) are used to inform the community of such incidents as well. Additionally, the Public Safety Daily Open Log is maintained outside the Public Safety administrative office, located in University Center, Room 310 and the public safety website at: http://www.usfca.edu/public_safety/stats/stats.html. The Open Log contains information about crimes and suspicious occurrences reported to Public Safety over one calendar year. The Open Log states the location, date, time, description and disposition of the incident, and it is updated every two business days.

The University of San Francisco 2009 Annual Security Report (Reporting years 2006, 2007, 2008)

Safety Escorts

The Safety Escort Service is a service offered to members of the University community who need a safety escort from campus to an off-campus residence or vice versa. Safety escorts to other locations are provided at the discretion of the shift supervisor. The boundaries for the Safety Escort Service are California Street (north), Haight Street (south), 6th Avenue (west) and Divisadero Street (east). The service is available from 7:00 p.m. to 6:00 a.m. (or hours of darkness during winter months), and can be reached by calling 4201 from a campus phone or (415) 422-4201 from an outside line.

Although every effort will be made to respond in a timely manner, if the safety escort is required to respond to another call for service, such as an emergency, it may take an undetermined amount of time for public safety to respond to the request.

Sexual Offender Information

Megan's Law is a law that requires dangerous sex offenders to register with their local law enforcement agencies. It empowers local law enforcement to notify the public about high-risk and serious sex offenders who reside in, are employed in or frequent the community. Please visit the Megan's Law website at <http://meganslaw.ca.gov>

San Francisco Police Department Information

The closest San Francisco Police Department Station is Richmond Station, located at 461 6th Avenue. The phone number is (415) 666-8000. This station covers the Richmond Area from Lake Street to Golden Gate Park and from Steiner Avenue to Ocean Beach.

FACILITY ACCESS

Administrative and Educational Buildings

The University of San Francisco maintains private property status. However, access to the University grounds and administrative buildings is generally not restricted. Most administrative buildings are secured at night and on holidays by a card access system.

Residence Halls

The Office of Residence Life (Residence Life) is responsible for the management of five on-campus residence halls, one campus apartment complex, one off-campus residence hall and one off-campus house. Information regarding Residence Life staff, services, policies and programs can be found in the *Fogcutter Student Handbook*. Peer advisors (Resident Advisors) and/or professional staff (Residence Hall and Apartment Directors and Assistant Directors) are available in every building to assist residents in adjusting to student life and to provide a sense of security and community. Residence hall room and apartment doors are equipped with peepholes and building entry doors require a card swipe for access. Additionally, guest registration policies and resident I.D. requirements serve to increase the security of the residence halls.

University Athletic Events

USF athletic events are open to the public on a paid admission basis in most cases. Events include basketball and volleyball in the Memorial Gymnasium, soccer at the Negroesco Stadium and baseball at Ulrich Field. Public Safety Officers are regularly assigned to major athletic events to ensure the safety of guests and participants.

The University of San Francisco 2009 Annual Security Report (Reporting years 2006, 2007, 2008)

Regional Campuses

The Division of Academic Services operates off-campus centers for degree programs. These centers are located in Sacramento, San Ramon, Cupertino and Santa Rosa. Law enforcement and public safety responsibility for these sites rests with the agency having jurisdiction over each respective site. However, Public Safety receives reports from these agencies. Efforts are made to pass along safety and crime prevention information to students and staff of regional programs.

Maintenance of University Grounds

The Facilities Management Department is responsible for the upkeep of University facilities and grounds. Facilities Management conducts regular maintenance of the physical plant, including lighting systems, as well as providing for landscaping of grounds to ensure a safe environment. Facilities Management and Public Safety work closely to detect potential hazards so repairs can be made in a timely fashion.

DRUG AND ALCOHOL POLICY

The University has implemented a program to minimize the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees on school premises or as part of University activities. The University annually distributes a copy of its Drug Free Policy, included in the *Fogcutter Student Handbook*, to students as part of its drug prevention program. This Policy prohibits the possession, use and distribution of illicit drugs. The University abides by state and municipal laws with respect to the possession and consumption of alcoholic beverages, and the Drug Free Policy prohibits the possession and consumption of alcohol by persons under the age of 21. Persons over the age of 21 may

Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act 2009

consume alcohol in the privacy of a residence hall room or apartment with others who are over the age of 21, at University and sponsored events or locations where alcohol is served under a liquor license.

University and state regulations require that a Public Safety Officer be present at events where alcohol is served, and at other events requiring permits from the Alcohol Beverage and Control Board. USF encourages its students and employees who suspect they have a substance abuse problem to seek assistance through campus resources such as the Counseling Center, University Ministry and Employee Assistance Program (EAP).

SEXUAL ASSAULT POLICY

The University of San Francisco recognizes that sexual assault is a serious issue and will not tolerate such offenses under any circumstances. Any University student or employee who commits sexual assault will be subject to disciplinary action, which may result in expulsion or suspension from the University or termination from employment, as well as any actions external authorities may undertake. With the consent of the victim, all reported sexual assaults will be investigated and appropriate disciplinary and/or legal action will be taken. Once an incident of sexual assault becomes known to any University official (employee) that person (with the exception of mental health counselors and pastoral officials) has an obligation to report that incident to Public Safety. Upon receiving the report, an Officer will be assigned to conduct a preliminary investigation to determine whether the incident will be reported to SFPD for criminal investigation. If referred, SFPD will then assume the full responsibility for any criminal investigation. Victims should be conscious of preserving evidence that may be

The University of San Francisco 2009 Annual Security Report (Reporting years 2006, 2007, 2008)

useful during criminal prosecution. Victims should be encouraged to follow up with the University's Counseling Center, University Ministry or other public and private services within the city. The University will make changes in a victim's academic and living situation if reasonably possible. For more information, please refer to the University's Sexual Offense Policy, found in the *Fogcutter Student Handbook*.

SAFETY TIPS

Please report suspicious persons, vehicles or incidents to Public Safety by calling extension 2911 from a campus phone or by using any campus emergency phone. When possible, travel in groups, especially at night. Use streets and routes that are heavily traveled and well lighted, and use the Safety Escort Service if you feel unsafe. To request an escort dial extension 4201. We encourage your participation in preventing crime on the USF campus.

CRIME STATISTICS

The tables below report USF's crime statistics for the 2006, 2007 and 2008 calendar years. It is important to note the following:

- None of the regional campuses have Residence Halls.
- USF reports the number of victims (depending on the crime) involved in incidents not the number of incidents. Thus, if one incident involved three victims we report three rather than one.
- USF reports the number of persons who are charged with a violation of policy not the number of persons who are found responsible for a violation of policy.

Hate Crimes

There were no reported hate crimes for the years 2006, 2007, 2008 for neither the San Francisco Main campus nor any of the regional campuses.
