Welcome to the University of San Francisco — the university of sharp minds, big hearts, and independent spirits. Come join a community dedicated to progress and to positive action. Come learn to change the world from here.

ACADEMIC EXCELLENCE

Our graduate programs are rigorous by nature and practical by design. Here you'll learn by doing, not just by listening. You'll answer tough questions and ask them, too. Your professors will challenge you to think critically, communicate clearly, and solve complex problems — the tools that employers want the most, in every field.

SAN FRANCISCO ADVANTAGE

At USF, you're in the center of one of the world's most dynamic cities, connecting with people, organizations, and employers who are shaping our world. With our deep San Francisco roots and connections with companies such as Google, Tesla, Deloitte, and Kaiser Permanente, we'll help you find job opportunities — or launch your own startup. From technology to finance to the arts and nonprofits, no other place offers you this atmosphere of innovation and this wealth of opportunity. And USF puts you in the center of it all.

FIVE SCHOOLS, ONE MISSION: CHANGE THE WORLD

At the University of San Francisco, we offer you more than 60 master's, doctoral, and credential programs across five schools. Each school offers you plenty of personal attention and a curriculum grounded in Jesuit calls to action:

Turn rigorous thinking into positive action.

Do good while doing well.

***Cura personalis* — care of the whole person — is an important characteristic of USF's Jesuit education.**

Join a community where good deeds are just as important as good grades, and where you learn to succeed not only in the workplace but in life.

QUOTE

What made me choose USF was the learning-by-doing aspect. I knew that as soon as I found a school with this teaching approach, it would match perfectly with my learning style. Also, the university's mission, philosophy, and vision of making a difference and changing the world... not a lot of universities out there set the bar that high.
