

# THE CHANGE YOU'VE BEEN LOOKING FOR.

TRANSFER TO THE UNIVERSITY OF SAN FRANCISCO

# EVERY YEAR, NEARLY 500 STUDENTS TRANSFER TO USF.

And no wonder. From our breathtaking hilltop campus to vigorous intellectual community to incredibly diverse student body, this is an education that will transform the way you think about the world—and your future.

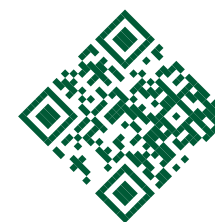

**TRANSFER SOONER** You only need 24 transferable semester units and a 2.5 GPA (30 units and a 3.3 GPA for nursing), and we'll make sure you get credit for the classes you've taken. Check out any of our 60+ articulation agreements with two-year colleges, or try our Transfer Credit Evaluator tool.

**GRADUATE ON TIME AND ON BUDGET** USF doesn't have impacted majors. That means you'll be able to get the classes you need to complete your degree on your timeline.

**GET REAL WORLD ROI** Our graduates are in the top 6% for lifetime earnings. Over the span of their careers, they see a higher return on their investment than alumni from many other U.S. four-year universities. (Georgetown University, "Ranking 4,500 Colleges by ROI," 2022)

CREDITS TRANSFER

# A LEARNING ENVIRONMENT LIKE NO OTHER.

This is the place to put your knowledge to the test, take risks, and dare to learn from mistakes as well as successes. All while being supported every step of the way.

**LEARN IN THE COMMUNITY** Experiential learning is a core part of a Jesuit education. Teach civics in local classrooms. Research legal arguments to support refugees. Design a tiny home village for families experiencing homelessness. No matter your major, you'll get out of the classroom and use your knowledge in the real world.

**TWO ADVISERS TO LEAN ON** All students get both a faculty adviser in their major and an academic success coach. Together, they'll help you choose the right classes, thrive academically, and graduate on time.

**PROFESSORS WITH NETWORKS** USF professors go above and beyond to support students. They're invested in your professional success and will connect you with career opportunities, thanks to their colleagues in the industry.

# A FRESH PERSPECTIVE ON COLLEGE AND THE CITY.

USF offers the best of all worlds: the quintessential college experience (grassy quads, lively classes) smack-dab in the middle of a city buzzing with industry (yes, we have tech, but you'll also find finance, nonprofit, the arts, and government).

Transfer students are guaranteed one year of on-campus housing, so you'll have a home base from which to explore the city's 36 quirky and vibrant neighborhoods. And when you're ready to get your own place, our Off-Campus Living team is here to support your transition to apartment life.

# 77% OF USF STUDENTS COMPLETE **AT LEAST** **TWO INTERNSHIPS.**

USF provides an amazing network of support to help you launch your career and plan your future. Our Career Services Center is the place to go to perfect your LinkedIn profile and meet one-on-one with a career counselor who can talk you through the next steps in your career. And NetworkUSF connects you with thousands of USF students, alumni, and staff for job opportunities and mentoring.

And all of that strategic prep and planning and real-world experience? It works. Our students go on to pursue advanced degrees in top graduate programs at Boston University, Johns Hopkins, UC Berkeley, and Cornell. And they're building careers at Google, Cisco, the City and County of San Francisco, Sony Interactive Entertainment, and Stanford Medicine.

SEE THE VALUE  
OF A USF EDUCATION

## SEE WHERE OUR GRADS END UP:

> **KENDALL JOHNSON '23 (ECONOMICS, ENVIRONMENTAL STUDIES)** learned to use her voice to advocate for issues that matter. Thanks to an internship with the EPA, Kendall had a full-time program analyst job waiting at graduation. Today, she's out there supporting the fight against climate change and other key environmental initiatives.

> **DJ SINGLETON '23 (FINANCE)** turned his summer internship into a full-time gig. Today, he's an investment banking analyst working at J.P. Morgan. His advice: Network as much as possible because people really want to help you.

> **SADIE MILLS '23 (MARKETING, ENTREPRENEURSHIP & INNOVATION)** made internship inroads with campus speakers by connecting with them on LinkedIn. Her internship became a part-time job and then full-time employment after graduation as a research assistant with KNow Research.
